# Health Technology Assessment Services (HTA)

## Supporting fast access to new treatments

### HTA/AMNOG services

- ✦ Statistical support during the oral/written hearing process including participation in hearing
- ✦ Statistical support for implementing HTA relevant aspects into clinical study analysis plans
- ✦ Parallel performance of HTA and regulatory study analyses
- ✦ Performance of analyses for German and European HTA dossiers

### Experienced team of experts with deep expertise in HTA/AMNOG analyses

- ✦ Since 2019, successful delivery of HTA services to biopharma companies
- ✦ Experts in statistical consulting and statistical analyses in HTA and GCP context bringing more than 10 years experience in both areas
- ✦ Standardized and established interface enabling automated implementation of results into the dossier
- ✦ Efficient processes for timely delivery of high-quality outputs
- ✦ Short turn-around times for re-analyses resulting from data-updates

### High Quality Services

- ✦ High-quality services have allowed for establishing and maintaining a competitive edge to attracting and retaining clients
- ✦ Qualified member of BVMA since 2011
- ✦ Certified according to TÜV ISO 9001:2015
- ✦ Established and streamlined operations processes based on well-defined SOPs
- ✦ Strong focus on quality and automated processes resulting in minimum error rates

### Astrum: Providing enlarged service offering [www.astrumcro.com](http://www.astrumcro.com)

- ✦ Offering a full range of clinical development services spanning the entire drug development life cycle
- ✦ Part of large, diverse team of 300+ employees, incl. medical, scientific and operational experts
- ✦ Benefit from additional, complementary services, e.g. regulatory affairs, clinical site networks
- ✦ Broad geographical reach with offices in France, Portugal, Spain, Germany

At Pharmalog and within our wider Astrum group, we pride ourselves for our high-quality and agile project delivery coupled with exceptional client care. **Your goals. Our mission.**
